

AT 2,000 HOURS, OR 2 YEARS, IT'S TIME FOR MAINTENANCE ON YOUR POWER CURBER 5700-C

**'Proper maintenance of your curb machine makes good sense. It reduces your down time
--- the costliest part of your curb work. It also increases your machine's re-sale value.'**

--- Lee Myers, Power Curbers Technical Support

Maintenance At 2,000 Hours, or 2 Years

Order a Filter Kit from the factory and keep your curb production strong.

At 2,000 hours or 2 years, you need to:

- Change hydraulic oil
- Clean hydraulic tank suction screen filters
- Change torque hub oil in crawlers, trimmer, conveyor and main pump drive
- See Maintenance Manual page 4.7 for other scheduled service

Factory-recommended maintenance is a smart financial move for you.

10% Discount on Filter Kit • Ask for Part # 57C Filter Kit
