

AT 250 HOURS, IT'S TIME FOR ROUTINE MAINTENANCE ON YOUR POWER CURBER 5700-C

**'Proper maintenance of your curb machine makes good sense. It reduces your down time
--- the costliest part of your curb work. It also increases your machine's re-sale value.'**

--- Lee Myers, Power Curbers Technical Support

Maintenance At 250 Hours

Order a Filter Kit from the factory and keep your curb production strong.

At 250 hours, you need to change:

- Charge filter
- Servo system hydraulic filter element
- Hydraulic tank return filter elements
- Hydraulic tank breather filter element
- Engine oil
- Engine oil filter
- Air cleaner element
- Fuel filters

See Maintenance Manual page 4.7 for other scheduled service

Factory-recommended maintenance is a smart financial move for you.

10% Discount on Filter Kit • Ask for Part # 57C Filter Kit
