

2016 Service Schools

Principles of Operation and Maintenance

It is our pleasure to announce the following dates for our 2016 5700-B, 5700-Super-B and 5700-C training schools. These sessions are a great way to gain experience and confidence in your company's ability to operate, maintain and repair your Power Curbers equipment from factory specialists. Also, sharing information and know-how with other contractors who own Power Curbers is always a great learning experience.

For 2016, the class dates are:

- **February 15-16** **5700-B**
- **February 18-19** **5700-Super-B**
- **February 22-23** **5700-C**
- **February 25-26** **5700-C**
- **All classes are 8am to 5pm**

***Registration must be accompanied by payment of tuition.**

**** Power Curbers, Inc. reserves the right to cancel or combine classes with insufficient enrollment. We will make every effort to announce changes at least one month in advance.**

Factory 5700-B, 5700-Super-B and 5700-C Classes will take place in Power Curbers' state-of-the-art training center. These classroom-based schools will include sections on hydraulic and electrical system maintenance, troubleshooting, machine setup, special applications, concrete mixes and many other topics. Lunch and snacks will be served each day. Those attending will have the opportunity to meet and talk with Power Curbers associates from all areas including service, engineering, manufacturing and sales. Courses will be limited to 20 students per session.

Register early to reserve your spot!
